

IN THE SPECIFICATION

Please change the paragraph beginning at page 35, line 20, to read:

In the example shown in Fig. 12, the shift manipulation controller 120 flashes the D indicator of the second indicator 115 on the instrument panel during the period from time t11, at which the shifting to the R range is withheld, to time t12, at which the withholding state is released and the shifting of the actual gear range is started. The D indicator is switched off at time t12 and the R indicator (a frame of the second indicator 115 of the instrument panel corresponding to the R range) is switched on at time ~~[[13]]~~ t13, at which the shifting of the actual gear range to the R range is completed.

Please change the paragraph beginning at page 42, line 15, to read:

On the other hand, Fig. 13 also shows the indication state of the second indicator ~~[[155]]~~ 115 before, during, and after the shifting of the actual gear range.
